### **Description:**

This chair is an example of Finn Juhl's most beautiful work. It was originally designed for the 1946 Copenhagen Cabinetmakers' Guild Exhibition for master cabinetmaker Niels Vodder. In 1953, Juhl modified the chair into a simpler, more aerodynamic version for the furniture manufacturer Bovirke. It is this latter version, that Onecollection has re-launched. The 46 Armchair is manufactured in oak, walnut and teak and is upholstered with leather or fabric.
