Description:

Featuring a swivel base in aluminium, the AAC 121 has a slightly more formal expression than the other variants in the series. Retaining the same high backrest and generous seat that characterises the series, this design features a functional base with legs that fan out from the centre. AAC 121 Soft counterbalances the more formal expression of the aluminium swivel base with the softness and warmth of the quilted shell. In the AAC 121 Soft Duo, the quilted shell is offered with two different textiles or leathers to create a unique look that works equally well in corporate, public, or private contexts. By Hay
