Description:

Big Will table marks a new chapter in a gripping story, in which the Magis philosophy and technology, with its friendly shapes and rigorous production, meets the creative spirit of Philippe Starck, design star of indisputable fame. Big Will's most striking and characterful features are its wheels and the die-cast aluminium structure, which comes either in a polished finish or painted white or black. The top is in etched tempered glass (matt or glossy), in a choice of four different sizes. The extending version of Big Will is particularly significant: a grand, elegant table, the result of many years of study and research to achieve that "more than" that Magis always strives for when developing its designs
