Description:

Confluences may be considered to be a trailblazer in terms of the new trend for 'counterforms' as characterised by the interwoven yin-yang or puzzle-type effect. It will be just as pleasing to lovers of radical design, pioneers searching for a settee which is totally different from any other, as it will to all those who are seduced first and foremost by the freedom of posture and unheard-of conviviality offered by its colourful, unbridled compositions.
