Description:

Vondom now enters into the world of sunshade with Daybed, an elegant and comfortable sunbed with a double function for outdoor. Despite the large family of this collection; table, sofa, sun lounger, bank, chair, flowerpot his creator, the architect Ramón Esteve has designed this new element, thinking about the sensation to have an ideal bed, for relaxing, sunbathing and enjoying in the open air, under a sunshade which protects from the harmful rays. As the other models of Faz Collection, is inspired in the mineral forms that we could find in the nature, it recalls the figure of the crystallized quartz.
