### **Description:**

While the standard Funiculí was updated last year, this Marset's collection has also been extended to incorporate table and wall versions. Using the same double-clip mechanism of the original, these scaled-down models allow easy height adjustment and 360° shade rotation. The base of the table model has been fitted with a black rubber sleeve to prevent cold-contact between the metal and the table, and to impart additional stability. All versions are available in black, white, red, beige, and moss grey.
