Description:

Lina is a re-edition of one of the earliest projects designed by Gianfranco Frattini. Tacchini's armchair features an unusual wood frame that lends it a solid, yet lightweight, appearance. Its singularity lies in the slender legs and bent plywood element that supports the side of the seat back and curves up to become the 'wing' upon which the armrests sit. Lina can be paired with unaffected ease with all the sofas in the Tacchini collection, in residential and contract settings.
